PROFESSIONAL SUMMARY

BCA student and Python/Django developer who ships production e-commerce sites for real clients. Built and deployed two live stores with Razorpay payments, GST invoicing, wholesale pricing, and admin dashboards, and uses AI tools to build, debug, and ship faster. Seeking a junior Django, Python, or full-stack web development role.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL, HTML5, CSS3
- **Frameworks and Libraries:** Django, Django REST Framework (learning), Bootstrap
- **Databases:** SQLite, MySQL, PostgreSQL (fundamentals), Supabase, Neon
- **Web Development:** Django templates, Django ORM, CRUD operations, authentication, REST API fundamentals, responsive design, Razorpay payment integration, GST invoicing, SEO basics
- **Tools and Deployment:** Git, GitHub, VS Code, Vercel, Render, Gunicorn, WhiteNoise
- **AI-Assisted Development:** Claude, prompt engineering, AI-assisted coding and debugging

PROJECTS

F.F Manufacturer - Leather Belts E-commerce Website

Live: https://ffmanufacturer.vercel.app/ | GitHub: https://github.com/farhanalam851/ffmanufacturer

- Built a full-stack Django store for a Kanpur leather belt manufacturer with catalog, search, filters, reviews, wishlist, and retail plus wholesale tier pricing.
- Integrated Razorpay, cash on delivery, and bank transfer checkout with GST-compliant invoicing (CGST/SGST/IGST), shipping rules, and order tracking.
- Created a staff dashboard with sales charts, stock alerts, and order management; deployed on Vercel with PostgreSQL, CSP, rate limiting, and HMAC-verified payments.

Lala Sarees - Django E-commerce Website

Live: https://lalasarees-site.vercel.app/ | GitHub: https://github.com/farhanalam851/lalasarees_site

- Built a Django store for a Kanpur saree shop with collections, occasion filters, search, photo reviews, and retail plus wholesale pricing.
- Integrated Razorpay (UPI, cards, netbanking), UPI QR, and cash on delivery, with per-product GST/HSN invoices and state-based shipping.
- Developed a staff dashboard for orders, payment verification, and review moderation; added SEO (structured data, sitemap) and deployed on Vercel.

Portfolio Website

Live: https://farhan-portfolio-ippz.vercel.app/

- Designed and built a personal developer portfolio showcasing projects, technical skills, and web development services.
- Deployed on Vercel with a Neon (PostgreSQL) database connection.

JavaScript Mini Projects

- Built browser-based applications including an Amazon-style shopping interface, to-do list, rock-paper-scissors game, and calculator.
- Applied DOM manipulation, event handling, reusable JavaScript modules, and localStorage for data persistence.

EDUCATION

Bachelor of Computer Applications (BCA)

Dr Virendra Swarup Institute of Computer Studies | 2026 - Present
